EXPERIENCE

ORISERVE | Fullstack Engineer
Noida, August 2018 – December 2018

- Implemented independent microservices
- Refactored legacy JavaScript code to the latest standards (ES6+)
- Introduced Docker-Compose to boot up several services together
- Implemented ACL with MongoDB & Node.js, built Alexa apps
- Participated in architectural design & scalability issues
- Encouraged comment less readable coding style and did API & Code Documentation

CLASSPLUS | Fullstack Engineer
Noida, September 2017 – August 2018

- Built REST APIs using Node.js & MySQL
- Built the web platform using React.js & Redux
- Integrated 3rd party APIs for both backend and web
- Implemented Redis Caching & wrote Unit Tests
- Used latest ES6+ code with MVC pattern & published NPM modules

KISAN NETWORK | Fullstack Engineer
Gurgaon, March 2017 – June 2017

- Built REST APIs using Node.js & MySQL
- Built Admin Dashboard using HTML/CSS & jQuery
- Integrated Slack & other monitoring APIs

Freelance | Fullstack Engineer/Consultant
Noida, December 2016

TALKS

- "GraphQL using Node.js & MySQL" at Social Cops
  November 2018 [YouTube: https://goo.gl/QzhF1w]

- "Webpack Inside Out" at Urban Clap
  March 2018

OPEN SOURCE PROJECTS

React Starter Kit | 20+ stars / 5 forks
Uses Hot Module Replacement, redux-saga and has a sample application
GitHub URL: https://goo.gl/Z7sBCf

Node Blockchain
Implementation of a distributed crypto currency network with ES6 classes & Unit Tests
GitHub URL: https://goo.gl/BHKUdK

Alexa Skills | 5 stars
Collection of apps using different Alexa features which you can deploy in your own server instead of AWS Lambda
GitHub URL: https://goo.gl/FFfECb

Rest & GraphQL | 5+ stars / 5+ forks
Incorporated GraphQL in existing REST APIs project with scalable repo style
GitHub URL: https://goo.gl/MyvGrZ

Problem Solving JavaScript | 5 stars
Collection of solutions to problems and data structures with unit tests
GitHub URL: https://goo.gl/KHvP9A

Guidelines | 8+ stars
Contains guidelines to various day to day web development problems/suggestions that I have learnt in my journey
GitHub URL: https://goo.gl/tY5s1i
